

# Classic red London bus hire

Open Platform Routemaster

Open Topper with Open Platform

## Double Deck Routemasters for Travel

The Routemaster is remembered as London's classic bus, a timeless icon of the capital as much as Tower Bridge.

These outstanding and versatile vehicles were built in the 1960s.

All our Routemasters are painted pillar box red outside, and smartly refurbished inside. They provide a civilised, well designed travelling space. The upper saloons are very well suited for sightseeing.

### Open Platform Routemaster (photo opposite)

- Suitable for local or moderate length journeys
- There are up to 72 seats, but we can provide more than one of these buses, to your needs
- Features a traditional style "hop-on, hop-off" open entrance platform at the back
- Crewed with not only a driver, but also a conductor; available to assist passengers before and during the journey

### Routemaster Express (photo opposite)

- Suitable for local journeys or slightly longer cruises. Attains a higher top speed
- There are 57 seats. We have two of these buses
- Features a more spacious interior, plus entrance doors. The well known Routemaster appearance is retained
- Crewed with a driver only, leading to a lower price

## About Us

We specialise in traditional, British built, former London buses of the 1950s and 1960s era, restored to the highest possible standard. Our buses for travel are fully licensed\* & insured for carrying passengers.

Timebus is a friendly, family run, business established over 35 years and based near the Capital. We pay great attention to detail and quality.

Our office is manned 6 days a week to deal with inquiries, and our drivers and conductors are professional, trained, and uniformed. We have contingencies in place to cater for vehicle problems.

Whatever your destination and individual requirements, you can be sure that your party of friends or guests will be the centre of attention in a stylish and fun "Timebus".

\*DVSA PCV licence operator number: PF0001220

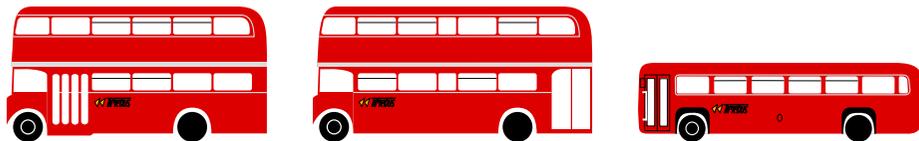

## Environment

Buses provide a more ecologically viable alternative to cars or taxis. Double deckers make optimal use of road space, helping reduce congestion further.

Our continuing use of heritage vehicles is 'greener' than purchasing new ones every few years. We arrange ongoing refurbishment, keeping them looking as new, whilst mechanical servicing is to the same high standards as contemporary buses.

For lower emissions, most of our vehicles have newer (and more reliable) engine designs than when built.

The power to weight ratio, compared to modern vehicles, helps our drivers use less fuel through economical driving. Routemasters are also more fuel efficient because they are constructed from lightweight Aluminium, like aircraft.

## Decoration

For weddings, we can arrange ribbons and silk flowers on the bonnet and entrance of each bus, free of charge.

In December, we provide complimentary seasonal decoration for travel.

Ribbons and balloons can be provided, eg for proms.

All the above are created by our resident, qualified florist.

To personalise further, you may consider a (white on black) Personalized Sign, which we can supply and display on the bus front. These may usually be taken away as a permanent souvenir.

## Hiring a Timebus

For a no obligation, bespoke quote for vehicle hire (complete with necessary crew), please contact us. We look forward to serving you.

Since our heritage vehicles are not suited to faster, long distance work, we usually operate in London and surrounding Home Counties. We store best access details to thousands of venues we have previously visited.

The descriptions of our vehicles herein give the number of seats on each. For shorter journeys, shuttle trips may be feasible.

All our buses are fitted with public address systems (microphone and speakers) for commentary and announcements.

Souvenir Tickets can be printed for every passenger by our conductors, using a genuine 1950s machine, for a small extra charge.

We can reserve seats on board for VIPs amongst your guests!

Exhibition Bus

## Static Buses

### Exhibition Bus (photo opposite)

Another bright red Routemaster double decker, but with a closed top. Entice visitors to year-round roadshows or in exhibition halls.

- Entrance doors at the rear
- Downstairs open plan for flexible uses, with poster holders
- 22 deep cushioned seats upstairs, some with table bays
- Electric supply input for interior lights and sockets
- Advert panels can be installed down both sides

### Open Topper with Open Platform (photo on front cover)

A bright red double decker that draws attention, making it very useful for drawing your visitors at exhibitions.

Visitors can board to see a panoramic vista from the open top deck; ideal for outdoor events or a sea of stands in exhibition centres.

- Fun hop-on open entrance platform, great for selfies
- Cushioned seating; some with table bays, 16 downstairs, 28 up
- Electric supply input for interior lights
- Banners can be draped down both sides

## Single Decker Bus for Travel

### Regal Four (photo opposite)

This classic red single decker has a unique character amongst our fleet, evoking nostalgia by recreating the atmosphere of the 1950s.

She features entrance doors at the front and a restored interior, with an ivory and dark green colour scheme, moquette upholstery, leather seat edging and varnished wooden floor planking.

Seating up to 39 people on one level, the Regal Four is well suited to transporting smaller parties.

Access is rarely limited by low tree branches, eg in country areas.

Available outside central London from April to October inclusive.
